## Overview

**Cosmic Design** is a nine-week immersive training that awakens your direct relationship with the living cosmos. Through weekly teachings, embodied practices, and cosmic reflection, you will learn to access and interpret your unique **Cosmic Design** — and, if you choose, guide others in doing the same.

Each week's module will be uploaded to the course portal and includes:

- **60–90 minutes of content**
- **Video, audio, and written transcript formats**
- **AI-generated summary of the lecture**
- **Module worksheet and homework guidance**
- **Suggested daily meditation**

You are invited to engage at your own rhythm, yet consistent weekly immersion is encouraged.

A **daily meditation** has been recorded specifically for this training. I encourage you to listen each day — allowing it to become your anchor. Over time, you'll be able to guide yourself through the practice in your own voice and energy.
